

SONAR SERIES OPTIONAL SENSOR WITH REMOTE CONTROL

The Sonar Series represents the latest technology and highest efficacy of 190lm/W for industrial, commercial and retail lighting. The compact design allows for ease of installation across a range of settings, with the inclusion of an optional sensor.

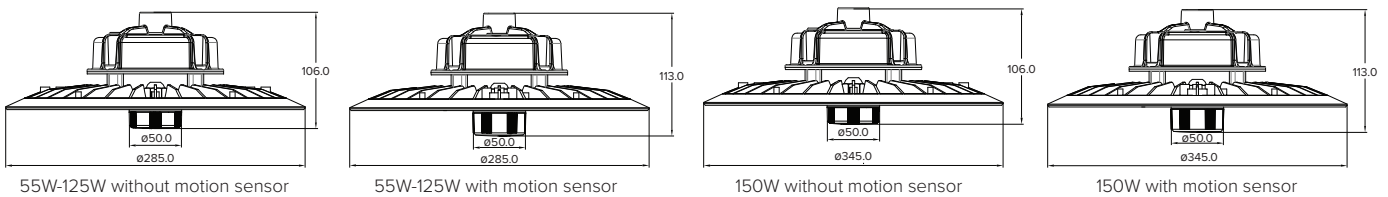

The optional plug and play motion and daylight sensor offers additional energy-savings, is easily installed (no wiring required) and conveniently controlled from the ground via a remote control.

FEATURES

- High efficacy of 190lm/W
- Compact design
- Optional sensor
- Ease of sensor installation (no wiring required)
- Remote control for dimmable sensor with memory function

Sensor and Sensor Remote Control

SPECIFICATIONS

POWER FACTOR	>0.9
CRI	>80
BEAM ANGLE	100°
SENSOR	Optional
DIMMABLE	via sensor
IP RATING	65
LIFETIME (L ₇₀)	>70,000h
WARRANTY	5 Years
